TOWN PLAZA TURF RENOVATION AND FOUNTAIN UPGRADES

Los Gatos, CA - On March 9, 2009, the Town of Los Gatos will begin renovations at Town Plaza Park. Upgrades to the park include:

- Removal and Replacement of Existing Turf
- Expanded Storm Drain System and Additional Storm Drain Inlets
- New Ultra Violet (UV) Fountain Filtration System

For the safety of the public, a 4-foot vinyl fence will be installed around Plaza Park on March 9 for the duration of the renovation period.

It is anticipated that all renovations and upgrades at Plaza Park will be completed by April 17, depending on the establishment of the newly installed park turf. The park fountain will be activated upon the installation of the new UV filtration system, which is expected to be completed by April 30.

For more information, please contact Kevin Rohani, Town Engineer, Parks and Public Works for the Town of Los Gatos at (408) 399-5773.
